er, the left hand and arm play important roles, not only in the way of control, but giso in the way of distance. The left hand and arm must not only help start the club or bat forward, but it must continue the sweep as the right hand puts on the finishing crash or snap. Yet the average golfer at least lets the left hand and arm quit on the forward swing when that is where a big part of his distance must come from. Roger Wethered uses his left arm to better effect than any of the British amateurs and this accounts largely for the fact that he is one of the longest drivers in the world today. You can get a backward flick with the left that works up almost as much speed as a forward enap with the right."

THEN RUTH CAME UP
About this time "Babe" Ruth came

up.
"There's another common fault of
both games." remarked the open
"champ" as Ruth, overanxious, lunged hurrically at the ball.
"This big fellow is so keen to hit
one that he can't wait for his timing.
He hit at that one about two feet too

"Bu if you watch Ruth closely you will see how much he uses his right arm, although he is a left-handed hitter. He doesn't get the big punch from his left—"

Here Ruth took a savage welt at one and as he did so turned loose the bat handle with his left entirely, letting the backhanded right swish the club on through. club on through

"Both baseball and golf," continued Barnes, "are two-handed games. The swings, after all, are pretty much alike, only in different planes. It is the pivoting of the pitcher, however, that the golfer ought to study. He pivots perfectly, with the right leg firm and the left side of he body with the left knee, turning in, and his cide arm and his underhand throw are a good bit like an iron shot in golf.

"He doesn't snap from the top of the swing just as he is getting ready to let the ball go. The golfer shouldn't snap too soon, but just before the club head reaches the ball."

THE CASE OF SPEAKER

THE CASE OF SPEAKER
"Ty Cobb," remarked Barnes, "has more of a quick snap, but Tris Speaker has one of the finest golf swings at bat I have ever seen. He is a left-handed litter, but his right arm has firm control of the bat and helps carry the wood to a perfect follow through. He doesn't try to do all the hitting with his left and let his right quit on the stroke. The right, although hitting back handed, sticks to its job of sweeping the bat along with the left aiding in the final snap as the ball is met.

Bob Shawkey was pitching, using fine control.

"Here's another detail." remarked the open champion, as Shawkey cut the corner with a third strike.

"Do you figure Shawkey would be
